DETAILED ACTION

Response to Amendment

1. The amendment After Final filed December 10, 2004 has been entered and rejected claims 1-10 have been cancelled.

Allowable Subject Matter

2. Claims 11-23 are allowed.
3. The following is an examiner's statement of reasons for allowance: Claims 11-23 recite, inter alia, a method for fabricating an LCD device/forming polymer micro-structures comprising the steps preparing a mixture comprising a liquid crystal material and a prepolymer, disposing said mixture into a space between a first and second cell wall structures, causing said liquid crystal to assume a predetermined orientation with a non-uniform spatially distorted director field and formation of polymer micro-structures having a shape and a spatial location determined by a director field of said liquid crystal after the mixture have being exposed to conditions which cause polymerization of the prepolymer. The prior art does not teach or fairly suggest the above limitations in combination with other claim limitations nor would it obvious to modify the references of record so as to fabricate an LCD device/polymer micro-structures of the instant application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
